

High quality, efficient and dependable

The imageRUNNER ADVANCE 6500i Series delivers high performance and quality black-and-white output for demanding office environments. These intelligent systems enhance productivity through improved document workflows and an intuitive user experience.

Workflow Efficiency

- An intuitive user interface with a large, responsive colour touchscreen with smartphone-like usability makes carrying out tasks easy.
- My ADVANCE enables a unique, personal experience across a fleet, creating a customised user experience tailored to meet each user's workflow needs.
- Canon's MEAP platform provides support for a range of integrated solutions designed to simplify workflow and help provide a holistic business solution.
- Scalable support for mobile and flexible work styles can increase efficiency by allowing workers to capture or print documents using Canon Business Print app.
- Support for scanning and converting documents to a Searchable PDF, Microsoft® Word, and Microsoft® PowerPoint files is available as an option.
- Intelligent features, such as motion sensor technology to wake the device from sleep mode and the ability to remove blank pages when scanning, help maximise productivity.

Cost Management

- The ability to apply print policies, monitor output, and restrict usage by user helps reduce unnecessary printing, encourages cost recovery, and can help save money on paper and toner.
- Tight integration with output management solutions, such as uniFLOW, provides the ability to carry out detailed tracking, reporting, and cost analysis.
- Quality and reliability, combined with remote diagnostics and assistance, can help reduce costs by minimising downtime and time spent by IT resolving issues.
- Consistent user operation combined with remote and centralised fleet management can help simplify IT management of devices and entire fleets.

Security

- Control who has access to the device with authentication by using the standard Picture Login authentication.
- Help prevent unauthorised distribution of sensitive information with an array of standard and optional document security features.
- Help ensure information privacy and security across your entire network with IPsec, port filtering capabilities, and SSL technology.

Device and Fleet Management Efficiency

- Ease administrative burdens and increase uptime with eMaintenance. Automate your fleet maintenance task, improve consumables management and gain better control of networked devices.
- Standard PCL support integration with enterprise applications and legacy systems to help streamline business processes.

Reliability

- Canon's signature reliability and engine technologies provide high quality output to meet the needs of busy departments.
- State-of-the-art imaging technologies and toner allow for consistently striking images in rich black-and-white tones and 1,200 dpi print resolution.
- Designed to achieve maximum uptime with status notifications to help keep supplies replenished, intuitive user walkthrough videos guide users to replace toner on the fly.

Sustainability

- Fusing technologies, Precise Output (pO) toner, and innovative sleep mode features help lower overall energy consumption.
- Help minimise waste with 2-sided printing, secure printing, and the ability to hold print jobs, preview them and change print settings at the device, helping to achieve the results you want the first time.
- Incorporates sustainable design, with the use of recycled materials and bio-based plastic in some parts, and a focus on minimising environmental impact.
